2JAVA Project

Java Technical Documentation

By Victor Coisne and Yann Hobbe

Summary :

1.Introduction.....	3
2. Installation guide.....	4
3. Technical documentation.....	5

1. Introduction

This is the technical documentation for the iStore project. Coded with Java and displayed in both CLI and Swing.

2. Installation guide

Java Installation :

Windows Installation

1. Download the JDK 23 file : <https://jdk.java.net/19>.

2. Mettre en variable d'environnement :

Key : `JAVA_HOME`

Value : `filepath/jdk-19`

MacOs Installation

1. Download the JDK 23 file : <https://jdk.java.net/19>.

2. Start a terminal.

3. In the terminal : `export JAVA_HOME=filepath/jdk-19/Contents/Home`

4. To check if correctly installed, type : `java --version`

3. Technical documentation

In the JavaProjectDocumentation file, open the index.html file and there will be the information for each function.
